Waypals

Where have you been?

Turn your travels into a passport. Collect a stamp for every place you've visited, and plan the next trip with friends.

Free · works in your phone's browser · nothing to install

1

Pin

Mark places you've been, want to go, or love.

2

Collect

Places you've been become stamps, with the month and year.

3

Passport

Finish collections and compare with friends.

Private by design

- Only public places can be pinned, never homes.
- Friends see the month and year, not the day, unless you choose.
- A Home Safe Zone can keep nearby stamps off what friends see.
